

Lloyd's Register of British & Foreign Shipping.

Appledore 8 October 1894

The Secretary

LLOYDS REGISTER,
LONDON.

REC'D 18 OCT 1907

ANS'D 21

S.S. Dufter Provider

I made your letter this morning
at the commencement of this vessel
only had instructions as to the
making of the Hull which I believe they
did on their previous letters and
one of which I sent you at that time
when the Hull was nearly completed
had a correspondence with the owner
Mr. Bunnell as to completing the Claf
all the Machinery &c when he told
the Boiler was passed by Lloyd's
men and if it did not cause
much extra expense he thought he
would Claf the business and I believe I
do for as the time of the vessel
was here saying I thought it advisable
and a letter to him through the same
as say Messrs. Aitch & Sons pay the
on the Hull. I am, Sir, your obedient servant,
E. W. W. W.

The Secretary

E. W. W. W.

Referred to the ~~Chief Ship~~ Surveyor
and the Chief Engineer Surveyor.
