

Stoberers Dock

Glasgow 13th April 1860

G. B. Leyfang Esq.
Sir,

The Owners of the Barque "Crouch Brothers" of Bristol, N^o 878 in your Register Book, $\frac{341}{374}$ Tons, have requested us to give them an estimate of the cost of lengthening that vessel sufficient to bring her Register Tonnage above 400 but under 450 Tons, on condition that her class will not be reduced by the lengthening.

We take the liberty of requesting to know whether her original scantlings are such as to permit of the proposed addition without injury to her character.

Apologizing for this trouble; an early reply will be obliging.
We are,

Yours obed. Servts
