

of Mr. Congdon, whether the  
Committee will be satisfied  
I am dear Sir,  
Yours respectfully  
Miller & Low  
JWB Leeds -

Gloucester Sep. 9. 1864.  
Geo. B. Leyfaughey?  
Lloyds. London  
Dear Sir. We have just built a  
small Barge of 300 Tons to class  
of 1 year, and is now complete,  
in presenting the certificates of  
testing of anchors & chains to your  
Surveyor, he declined to accept  
them, as those documents are  
not from a public machine  
but only the makers test -

To send these Anchors &c back  
to Staffordshire to be retested  
would involve considerable  
delay and large expenses -  
We therefore beg to propose to send  
them to Messrs Bell & Cammell at  
Bristol and should be glad  
to know if they are tested there  
under the Superintendence

of Mr.  
Coma
