

Bristol

20th July 1868

George B. Seyfang Esqr
Sir

Enclosed I send Report
for first entry on Bth "W^m Bargill", the
Ship referred to in your letter of the
14th inst.

Respecting the original Testing certificates
for Anchors & Chains, I have not been able
to obtain them, either from the Builder
or Owner, owing to the Insolvency of the
former, and the inability of the latter to
procure them from the Assignees.

On my last visit however, I examined
Anchors & Chains, and took notes of the
weights, marks &c, which on comparing
with the particulars ^{sent} me with your letter
of the 14th inst. are found correct; and
as the original certificates have been
produced at London Office the figure
I can be assigned.

32581-0007

Fastenings. — To Hold Beams Hanging over the sides to each beam, also strong

The delay in forwarding the Report has
been caused by my expecting daily
to receive the Test certificates from them
and also the fees, so as to complete
the Report. The ship has left for
London.

I am
Yr
Obedient Servant
Thos Craigdon
