Dear Sir

In reference to an enquiry into
your charges for survey a No 59 we
think that, considering Nos 58 59. 80
are identically alike and of such small
size the fee of £17-10 charged for survey
& entry fee for No 59 - which is £2 in
excess of that charged for No 58th is really
too high and might very well be reduced
by the difference. In addition the fees for
testing the boiler which were included in
No 50 were paid & then renewed a No
59 & there should be a corresponding
reduction on this account. We should be
obliged if you would communicate with
your head office to remain

Yours truly
Summers & Scott.
