Lloyd's Register of British  
and Foreign Shipping.

Barrow-in-Furness.

17<sup>th</sup> Feb. 1893.

The Secretary }  
London }

Sir:

As requested by your  
telegram of to-day I beg to forward  
to forward the working deck plan  
showing the details of the Superstructure  
also a profile showing how the vessel  
was loaded while running her trial trip.

From the profile it will be seen that the  
midship tanks were filled while N<sup>o</sup>. 6 tanks and  
the fore peak tanks were empty.

I have had an interview with Mr.  
Adamson to-day and he stated that it  
is not their intention to fit additional  
strengthening as the vessel was built.

Referred to the Chief Surveyor.
