Messrs Lloyd's Registry of Shipping

Dear Sirs

We enclose a ^{copy of} letter
from Messrs Casbourne Toulton & Co
in whom we are building No 111
respecting plank & space ceiling
In order to make this vessel
suitable for the coasting trade &
more especially for the coal
trade, we fitted close ceiling to
the side stringer with no
plank & space above.

We hope this will meet with
the approval of your Committee
seeing the vessel is intended
for the coal trade.

Yours truly

R Williams

BRW45-00892

Referred to the Chief Surveyor.

afB Messrs. R. Williamson & Son's

Ex. No. 111

10 JAN. 1898

It is submitted that
if this vessel is intended
for the coal trade the battens
above the close ceiling might
be dispensed with as proposed.
