

Submitted the First Entry Report on the S.S. "Dumail"  
should be forwarded to the Barrow Surveyors as requested.

It is further submitted the Surveyors should be  
informed that it is understood the shaft tunnel bulkhead  
is warped through in holes and that the deck plating  
is badly warped and laminated. The Surveyors  
should therefore give special attention to these matters  
and report thereon in the usual way. They should  
be reminded that the 2<sup>nd</sup> S. S. No 3 became due in May  
last and they should endeavour to arrange for that  
survey to be now held.
