Timbering.—The Space between the Floor Timbers and Lower Foothooks is 1 1/2 to 3 1/2 Inches. The Space between the Top-Timbers is 2 1/2 to 3 1/2 Inches.

The Floors consist of German Oak The First Foothooks of German & British Oak

The Second Foothooks of British Oak The Third Foothooks and Top Timbers of British Oak

The Shifts of the First and Second Foothooks are not less than 1 1/2 to 2 1/2 feet 3 3/4 to 3 8/12 N. B. When less than prescribed by the Rule, state how many.

The rest of the Shifts of the Frame are

The Frame is well squared from the First Foothook Heads upwards, and well free from sap, and from thence downwards, the frame is well squared

the alternate Frames are each bolted together to the Gunwale. o ship all built in frame N. B. If not, state how bolted.

the Butts of the Timbers are close together; their thickness not less than 1 1/2 up of the entire moulding at that place.

the Frame is cross chocked with no Butt at each end of the chock. The Main piece of Rudder is But 1st Oakthe Main Keelson is Greenheart and free from all defects. The Main piece of Windlass is But 1st Oak

the Stem, and Stern Post, consist of British Oak Deadwood, of British Oak and are free from all defects.

Hawse Timbers of British Oak Deadwood, of British Oak and are free from all defects.

Deck and Hold Beams consist of But 1st Oak The Breasthooks of But 1st Oak The Knees of New or But 1st Oak

Planking Outside.—From the Keel to the Height defined in Note to Table A, the Plank is American Elm + German Oak or to the First Foothook Heads

the above named Height to the Light Water Mark American Elm (+ see note) & German Oak

the Light Water Mark to the Wales German Oak

Wales and Black-strokes are Teak The Topsides Teak

Sheer-strokes and Plank-sheers Teak The Water-ways { Upper Deck Teak

Decks Yellow Pine State of Good Lower Deck

Shifts of the Planking are not less than 5 Feet 1 1/2 Inches. N. B. If less than prescribed by the Rule, state whether general

or partial, and if partial, in what part of the Ship. The Planking is wrought Three between, and without step-butting.

Planking Inside.—The Limber-strokes and Bilge-strokes are German Oak

Ceiling, Lower Hold, and between Decks German P^o & Pitch Pine Shelf Pieces and Clamps German Oak

Fastenings.—To Hold Beams Spur Looe & Jam Knees to each Beam end & Open Hair Jam Knob Rivets

Beams Staple Looe & Jam Knees 1 space for same aff each side double Looe But 8" Knobs & 8" Hair Jam
is solid Quarter deck bound with Staple Looe & Knees

Number of Breasthooks 4 for under deck & 3 aff Pointers Crutches one iron

End Bolts are of Yelv Met in the Bottom and one Bolt in each Butt End through and clenched. one short

and Limber Strakes Yelv Met Kneel to Gunwale bolted through and clenched. Treenails of But 1st Oak How Made planed

aff over Double Floors. bolted through and clenched. General Quality of Workmanship Gavel

We certify that the above is a correct description of the several particulars therein given

Builder's Signature In Arbroath Shipbuilding by Surveyor's Signature Thomas Alexander

		All of <u>Good</u> quality.			2 2.2.0	
					1.2.0	

Her Standing and Running Rigging are one of Hemp sufficient in size and _____ in quality.

She has One 22 ft. Long Boat and two other boats

The present state of the Windlass is Good Capstan Good Rudder Good Pumps 2 Metal - Good

General Remarks and Statement and Date of Repairs, if any.

DATES of Surveys held while building, as per Section 35.	1st. When the Frame is completed	<u>8th August</u>
	2nd. When the Beams are put in, &c.	<u>24th D^o</u>
	3rd. { When completed, and before the plank be painted or payed }	<u>24 Septth 4^c</u>

This vessel is built with a raised quarter deck about 25 feet in length & Height of Main rail break overlapping main deck space of one beam. Is square sterned formed without transoms the stern & Counter timbers filling in against after cent frame secured by the overrunning plank outside with ceiling also hooks internally.

Is built of 9 years materials & essentially fastened with mixed metal & Copper to the entire exclusion of iron bolts & nails in all external fastenings agreeable to rule section 46.

The American elm in bottom plank having been inadvertently carried up higher than the rules admitted for the class but now under the light waterline has in reference to the Committee been sanctioned under minute of 14th Septth subject to the consent of owner

Specially surveyed while building under approval of order No 72

Present condition of Caulking of Bottom, Efficient Deck, Efficient and Waterways Efficient

If Sheathed, Doubled, Felted, or Coppered Yellow Metal on felt When last done Now

I am of opinion this Vessel should be Classed 10 A 1
