also of

Perth 21st January 1864

*I Certify that I this day measured the length
of the Deck of the Schooner now building in Messrs
Wallace & Guttery's yard, and find the length
of the same to be from the fore part of the Stern to
the aft-part of the stern post along the surge
of the Deck seventy-nine feet-nine tenths,
and depth of Holes at midships ten feet-one inch.*
