

1 Enclosure

Lloyd's Register of British and Foreign Shipping,

DUNDEE,

1<sup>st</sup> August

1885.

The Secretary  
Lloyd's Register

Sir,

Having made the most diligent search for the original tracing of the midsection of the s.s. "Eagle" I am sorry to say it cannot be found in this office.

With regard to its loss, I can only say, that I saw it, with the other documents in respect to this vessel, ready for being placed in the envelope in which these other documents were sent & reached their destination, but as I did not actually enclose it, my knowledge of the matter ends there.

The Copy which I now returned was compared with the original before being sent, & is perfectly reliable.

Should further search discover the lost tracing, I will at once forward it.

I am Sir, Your obedient servant

Wm. T. Cooper
