Dundee 21 Jan'y 1889

Lloyd's Survey

Dundee

Dear Sir:

We are favoured
with yours of 15th inst. and
note contents

The idea of constructing
the fore and after peaks
of S. No 89 as water
ballast tanks has been
abandoned. It is now
intended to fit the bulk-
heads with sluice cocks
in the usual way. There
will be no pipes either

for filling or pumping out
water

Yours truly
For W. B. THOMPSON & Co., Limited,

J^r Anderson
