

Referred to the Chief Surveyor.

27 APR. 1899

wood scho "Luhorada Gaya"

Req. early reply

It is submitted that Mr Sandry should  
requested to forward a sketch of the  
disposition of the framing as previously  
indicated to him. It is observed from  
one of the chips forwarded that the keel  
and outside planking is wormed; Mr Sandry  
should carefully examine all parts of the  
vessel and satisfy himself that the worming  
is only superficial and of no importance.  
The material is only of the 8 Yrs class.
