RECD 17 DEC. 91

ANSR

Genoa 15th Dec.

1891

The Secretary
Lloyd's Register

Sir

In answer to the inquiries
contained in your letter of the 1st inst. concern-
ing the S/S "Utari" I beg leave to ~~state~~
make the following statements in correction
or addition to my Report of 9th Dec. viz:

- 1st That there is a bilge infection 4" diam fitted
on the casting that carries the sea infection
or circulating valve
- 2nd That the boiler was built under my survey &
according to the tracing approved by the
Committee
- 3rd That the pump worked by hand or that can be
so worked in case of necessity refers to the
donkey
- 4th That when I went on board the donkey infection
was already fitted & I did not insist upon
having it removed as I understood at the time

GEN1113 - 0038 1/2

2

= Time that the boat was intended for river
purposes.

5th That there is no donkey boiler on board.

I trust that these explanations
will prove satisfactory & that the Committee
will grant the Certificate for the Engineer
boiler which are a very creditable job.

I am

Sir

Your Obedient Servant
Francis Westerman
Surveyor to
