Particulars of Repairs and Examination

Special examination of cylinder -

A new Low Pressure cylinder has been fitted in this vessel in consequence of the damage sustained to the old one & which had been temporarily repaired. The damaged part of the condenser has been efficiently repaired, the old patch plate having been removed & a new one fitted.

This is submitted that this account is eligible to remain as shown
J.M. 4/6/83

General Observations, Opinion, and Recommendation:— The new cylinder above mentioned has been satisfactorily fitted in its place, the condenser has been efficiently repaired & the Engines are now in good & safe working condition and eligible to remain as noted in the Register Book.
