Particulars of Repairs and Examination *Testing Donkey Boiler*

(State clearly the cause of Repairs if any, and in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage should be separated from Repairs due to other causes. State also the dates and initials of any letters respecting this case.)

The donkey boiler of this Sailing Ship has been tested in my presence on board of the vessel with a hydraulic pressure of 120 lbs per square inch and was found tight and sound in every respect at that pressure

The safety valve was also tested at the working pressure of 60 lbs per square inch the result being satisfactory

*No action can be taken on this report, which appears to be satisfactory
