## Particulars of Repairs and Examination Annual Survey

(State clearly the cause of Repairs if any, and in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage should be separated from Repairs due to other causes. State also the dates and initials of any letters respecting this case.)

The Vessel has been placed on the above slipway, and the propeller, stern-bush, and sea-cock fastenings examined, and found in good condition. The main boiler examined internally and externally and found in good working order. Safety valves also opened up and found in a satisfactory condition.

## General Observations, Opinion, and Recommendation :--

(State clearly what alteration, if any, is suggested to be made in the existing notification of the vessel's machinery in the Register Book, consequent upon this survey.)

The Engines and boilers of the above vessel appear to be in good order and safe working condition and eligible in my opinion to remain as classed with the notification of B.S. 3-86 added.
