Particulars of Repairs and Examination

(State clearly the cause of Repairs if any, and in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage should be separated from Repairs due to other causes. State also the dates and initials of any letters respecting this case.)

This vessel placed on ship way when the propeller and sea connections were examined externally and found in good order. No opportunity was afforded for surveying machinery.

General Observations, Opinion, and Recommendation:--

(State clearly what alteration, if any, is suggested to be made in the existing notification of the vessel's machinery in the Register Book, consequent upon this survey.)

As far as can be seen this vessel's machinery appears in good order and is in my opinion eligible to remain as classed.
