about being returned in full of record.
for some distance. A new shaft - space on ship has been fitted, the old
shaft of other three lines; the forward line was also changed on the ship.
In construction, the shaft was found to be similar to the former
one for examination and the back lined up with splicing wires.
When the paper-like shaft was more than in the other back, it was found
in order more than other shafts of commercial and industrial. The old one in good
