<u>+100A1</u> <u>4.94</u>		<u>+2M C4.94</u>

Last Survey No. \_\_\_\_\_ Port \_\_\_\_\_

Particulars of Examination and Repairs (if any) Docking

(Periodical Surveys, when held, must be reported in detail and seriatim in the terms of the Rules. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and besides being detailed in the body of the report, should be briefly summarised at the end of the report. State also the dates and initials of any letters respecting this case.)

- Did the Surveyor personally go inside each Main Boiler separately and make a thorough examination at this time?
  - Do. " Donkey " " "
- If this was not done, state for what reasons?
- And what parts of the Boilers could not be thus thoroughly examined?
- Also what special means, in the absence of internal examination, were adopted by the Surveyor to assure himself of the thorough efficiency of those parts of each Boiler?
- Did the Surveyor examine the Safety Valves of the Main Boiler?
- At what pressure were they afterwards adjusted under steam?
- Did the Surveyor examine the Safety Valves of Donkey Boiler?
- To what pressure were they afterwards adjusted?
- If the Survey is not complete state what arrangements have been made for its completion?

Whilst vessel was on Slipway, examined propeller & fastenings & outside sea connections & found all in good order.

General Observations, Opinion, and Recommendation:— The Machinery of this vessel is now so far as seen in good order & in my opinion eligible to remain as classed without fresh record of survey.

	£	s	d	Fees applied for
Office or Registration Fee (per Sec. 27)				18
