

Tracing  
Report.

Lloyd's Register of  
British & Foreign Shipping  
Glasgow 21<sup>st</sup> Oct 1882.

RECEIVED 22nd OCT. 82.

"M"

The Secretary,  
Sir,

With reference to your  
letter of the 20<sup>th</sup> Inst. pointing out  
a discrepancy in thickness of  
bulkheads in the Report and  
that shown on the approved  
sketch of midship section of the  
S.S. "Mauroto", I beg leave  
to state, that, the thickness  
of bulkheads as fitted in the  
vessel is  $\frac{12 \cdot 10}{32}$ , and I have  
corrected same on the Report,  
which is returned herewith  
with the approved sketch  
of midship section.

I am,  
Sir,  
Your obedient servant,  
J. Dodd
