

TESTS OF BOILER STEEL

Glasgow

October 25th 1888

Walter Robson

At the Works of Messrs. Ross & Duncan of Whitefield Works, Glasgow, during construction a pair of multitubular flat sided marine boilers intended for the Paddle Steamer "Veloxy" and that they are of good material & workmanship and have been tested in my presence by hydraulic pressure to 50 lbs. per square inch in accordance with the rules of this Society and are suitable for the intended working pressure of 25 lbs. per square inch.

Walter Robson.
