Received from Chief Surveyor

VESSEL'S NAME

Norham Castle

Report

Gls

No.

11015

The remarks of the Chief Surveyor are desired on this Case for the consideration of the Classing Committee.

The alterations having been carried out in a satisfactory manner, the requirements of S. S. N<sup>o</sup> 3. fully complied with and the vessel reported to be in good and efficient condition, it is submitted she appears worthy the favourable consideration of the Committee to remain as Classed 100A.1. and to have S. S. Gls. N<sup>o</sup> 3-9-91 recorded in the Register Book as recommended.

The main deep tank has now been removed & as it appears that the capacity of the after deep tank should be 130 tons instead of 152 tons as given in the Register Book, it is further submitted that the record N<sup>o</sup> 20, 2306 should be amended, and the record of Water Ballast amended as follows. W. B. = Deep Tank a. 407.1306  
S. S. Gls. N<sup>o</sup> 3-9-91.  
Rig Schooner 9 91.
