Dear Sirs,

We duly received yours of 13<sup>th</sup> inst. We have looked into the equipment of our N<sup>o</sup> 490 & find that the alterations made in the same, at the owners request, leave it scarcely equivalent to what is required by your rules. We would, therefore, submit the following for your approval.

120 fathoms 4½" steel wire. 120 4½

120 fathoms 3" steel wire. 90 ¾

Four 90 fathom lengths 6" Manilla 90 9

One 90 fathom length 5" "

The owners are more than satisfied with this arrangement & we should be glad to have your approval of the same.

Yours faithfully,

Wm Denny & Co

The above is submitted for favourable consideration
