Messrs Lloyd's Surveyors
Glasgow

No 79 & 80

Dear Sirs

We now submit for your approval the following
Equipment of Anchors and Chains etc to be supplied
to the above vessels.

"1 Bower Anchor 4 Cwt ex Stock"	
"1 - do - - do - 2 - " - " - "	
"1 Stream - do - 1/2 - " - " - "	
"105 Fathoms of 1/16 Short Link Chain Cable"	
45" 30 - do - 2" Steel Core in lieu of Stream Chain	
75" 60 - do - 5 1/2 Manilla	
70" 60 - do - 3 1/2 - do -	
60 - do - 2 1/2 - do -	

as the Table for equipment does not extend to such small
Vessels. we have extended them to suit, and you will note
we have submitted, One large and One small Bower
Anchor which we have done at the request of the Owners

as they are of the opinion that that arrangement would
be more suitable for the working of the vessels. and also
to point out that these vessels being so small and so
often in and out of Port, they do not wish to carry any
more equipment than is really necessary for the
actual working of the vessels.

Yours truly
Mackie Thomson
