

Holme Wood -

It is submitted that the Glasgow Surveyors be requested to state if the Engine of this vessel, were tried under steam; and on what grounds they made the recommendation of + L.M.C. 5 94 to be recorded, seeing that the last report on the Engine is dated April 92.

The tracing of the Main boiler should be forwarded and they should state, where the boiler has been lying, since it was tested in 1891.
