ANSP 1.9.96

Dear Sir

S.S. "Colina"

This Steamer has been taken from Garelloch and is now in Greenock Dock  <sup>Glasgow</sup>  having her Boilers retubed, and will go into dry dock next week to be cleaned and painted.

She is chartered for one month to go to Iceland for Sheep. The Charter is for such a short period that I do not feel warranted in going to the expense of completing the formal N. & P. Survey, but would like very much that she could be allowed to remain undisturbed

in your Register.

Of course if I find suitable employment after this charter I will communicate with you again, or if a purchaser turns up her exact position will be explained.

I am in communication with your representative here.

Hoping you can allow this

Yours very truly

Edward Watson
