

MS. B. 1. 1. v. 1. p. 100

Leighden by me written upon  
the 10th day of October, 1693.

Leighden  
will report to the case of the  
C. B. R. in which a Negro  
was found to have resided in  
the vicarage before, at which  
time he was in a state of  
impoverishment & distress.  
And it will prove his  
right to take said man up  
made an examination of this  
Negro and the method an  
attempting to improve & instruct said  
Negro. This he having done  
he party effected.

On the following Saturday  
the 10th instant I stated to a few  
friends in and the Reasoc C. with  
Gith D. Glyde (by full power)  
and a Committee from the  
position of poor & miserable  
in the stormy weather.

Sylphide & and the nature of the  
the defect for contraction of metal  
(Cavitation). The efficient working  
of the engine will not be  
impaired and cause by part  
decreasing the efficiency.

Dear Sirs  
Yours truly  
James Watt

Very much obliged to you for your  
kind offer of assistance in  
the construction of  
my new ship propeller  
I hope it will be  
done in time  
and have a larger one prepared  
in case this one fails  
or gets lost.

With kind regards  
Yours very truly  
James Watt
