London.

Sir.

Enclosed I send you Lists for the  
Quarter ending March 1900. I have taken note  
of what you require re credit in my a/c —  
I have again seen the Secretary of the Yacht Club  
and asked to get the Members to fill in the  
particulars of their yachts.  
S.S. Rotokino. This vessel is now in the Trade  
between Australia and Tasmania, as I mentioned  
in my last. No doubt Mr Watson at Melbourne  
will attend to her there although the Manager  
here says that the Class is no good to them out  
here. as the New Zealand Government Surveyors  
keep them up to the mark. The Chain cables  
were 135 tons very little wear. I have not given  
a Certificate for what I have done, as it was  
understood I was to complete the Survey when the  
Government Surveyors. Surveyed her in March, of  
course now that is altered.

I am Sir your Obedient Servant  
M. T. Haydon
