ANSR 9/6/03

London, England.

Dear Sirs;-

The "OCAMO" has nearly completed her survey and goes into dock about the middle of July to have her bottom plating bored above the cement Our ideas were that all her plating on her top sides above the close ceiling had been inspected and passed by your Surveyor in Glasgow but your Surveyor here interprets your letter not only as to bore the plating under the close ceiling but also the plating above the close ceiling to the upper deck If we are right in our contention that it is not necessary for us to bore the plating above the close ceiling kindly so instruct your Surveyor here

Yours truly,

Pickford Black
