5th October 1908.

Dear Sirs,

I duly received your letter of the 2nd instant with enclosures respecting a boiler taken from a disclassed vessel which you propose to fit on board your Steamer "SWIFT", and with regard thereto I have the pleasure to acquaint you that as this second hand boiler is actually intended for the above named classed vessel the Society's Surveyors at Grimsby will be authorized to undertake the survey and will inform you in due course whether the boiler is eligible for the working pressure desired.

I have to add that the dimensions of the engines will require to be taken into consideration in fixing the pressure.

I am, Dear Sirs,

Yours faithfully,

Secretary.
