Port Glasgow.

Dear Sirs,

We hereby certify that the Galv<sup>d</sup> Mild  
Steel Wire Rope we supplied your ship *N<sup>o</sup> 280*  
will stand a breaking strain of 45 tons per  $\square$ .

Elongation at 40 tons not more than 1% and for  
flexibility the wire will stand bending round  
its own diameter 5 times and unbending without  
fracture.

Yours truly
