This Phillips Esq^r

Dear Sir

I beg to inform you that the Campbelltown Shipbuilding Co. Campbelltown have handed to me a copy of your letter dated Nov 1/92 & also the one dated Nov 2/92 with reference to the Outfit supplied to their S.S. N^o 35. I am exceedingly sorry that this cable is under the required weight & I can assure you that it was ^{not} my intention to work under the weight, but I worked in accordance with Table N^o 22 dated May 29th 1890, not knowing until a few weeks back that there was a new table out N^o 22 dated April 28/92. I can assure you that I did not know of this new Table & regulations when I executed

this order for the Campbelltown Shipblock.

Lloyds people did not advise me about it & I knew nothing of it until it was

pointed out to me by Messrs. Geo. Abbot & Co. Gateshead on Tyne. I sincerely

hope that you will overlook it in this instance, as I do not wish to ignore your regulations in any way.

It means a serious loss to me to have to replace this cable, as I do not sell many cables this large & it may lie on my hands for years.

I do trust you will consider this over & kindly overlook it in this instance & I will see that it does not occur again. Trusting to get a favorable reply from you, I am Yours truly, David Willetts
