PATENT WRO. NAILS
PATENT WIRE NAILS
STAPLES FOR WIRE
FENCING, RAFTING &c

In reply to yr favor of 9th inst. -
I am writing to the Campbeltown Co. & have
asked them to forward on to you the Certificate
wh: I sent them some time ago. As I refer
to the present matter in hand. I explain
the difference in weight as being caused by
my manager allowing studs wh: were rather
lighter than they sh^d have been to be used.
They were in stock & he heedless by used them.
You will no doubt rec^d in fulfil wh: I have sent to Montrose
the studs used were a little heavier. but the ac-
tual quality of the iron & strength of cable will be
found not to be affected in either case by the
discrepancy in weight of studs used. - Kindly under-
me what assistance you can in this matter (as it will
be a heavy loss to me) I shall greatly esteem it.
Yours Truly D. Willetts
