report

With reference to your request contained
in classing letter of the 2nd inst. respecting the
Ship "Garnassos" I beg to state that the
vessel was not kept to her specified depth
during construction and this accounts for the
moulded depth given on my report being less
than intended, and I would respectfully
point out that the Registered depth together
with the other figures given on the report
practically agrees with the moulded depth
stated.

I am,
Sir,

Your obedient servant.
