Port Glasgow

Dear Sirs

No. 396.

Your favour of yday
recd and contents noted and
you really must excuse our
saying that we think your
words are very harsh. We
endeavour to keep the weight-always
up to Lloyds table, but now
and again a slight discrepancy
is likely to occur & for this
Lloyds allow in such cases
 $\frac{1}{2}$ per cent under min^m weights.
We can truly say that our
weight very often come over the

table and very seldom under.
If you are determined we
shall not avail ourselves in any
case of Lloyds Margin. We will
note that very carefully & provision
will have to be made for it
in our quotations.

Yours truly
(Sgd) S Taylor & Sons
