Bedarbank Extract from Divers Report
received Capetown today, finds
plates starboard side abaft break
forecastle to abaft break poop.
more or less scraped bare,
otherwise appear undamaged. also
finds heel pintle rudder canted
1 1/4 inches to port keel portion
rudder canted or bent like manner,
deep indent keel gudgeon apparently
caused heavy body striking against
it. Please cable your surveyor order
drydocking underwriter, no
objections if your surveyor approves.
