

1st March 1898.

Messrs Lloyd's Surveyors.

Greenock.

Dear Sirs,

The damage to the "Boverie" is stated to have been caused by the P. & O. steamer "Arabia", while lying alongside her in the Victoria Harbour Crane berth, pressing her into the Quay and against the rails thereof at low water, when the "Arabia" took the ground and lay over against her.

Yours faithfully,
