Hamburg 21st June
1876.

Sir,

Enclosed I have the pleasure to hand you Report of Survey of S. S. "Fortuna" for which, please, you will send me Certificate.

Enclosed also a letter of Mr. Meyer, builder of the Sea Foam, in which he states the seize of her chains as originally supplied. I have to add that the size, noted in my Report, is that of the thinnest parts to which they are reduced now.

Mess^{rs} Eggeling & Thieriot, Mess^{rs} W. Lazarus and Mr. L. F. Matthies are willing to continue their Subscription for that amount set forth in your letter.

I am,
