

Lloyd's Register of British
and Foreign Shipping.

Hamburg, 22^d September, 1881.

Sir,

The Owner of the Bk "Tijnea",
Mr. A. D. Border, Bordeaux, is very
much annoyed of his vessel only
having got 95 A in the Register
Book, instead of 100 A - what all
his other vessels have got - and
begs me to write to the Committee
again in this affair for getting
her classed 100 A.

As the vessel has under each
hidge stringer a foundation plate,
also between the decks an extra
side-stringer and as her rail is

constructed in a box-keelson shape,
she is of great longitudinal strength
and I am of the opinion her to
be eligible to be classed 100 A -

I am,

Sir,

B. Waymouth, Esq. your obedient servant
Ernst Tadderatz
Secretary to Lloyd's Register,
London
