REPORT, No.

FROM

DATE

ON THE

J. S. S. Stockholm

REMARKS OF THE CHIEF SURVEYOR.

It is observed that the spacing of the raised quarter deck beams is not given in the report but it is concluded that it is 22 inches as shown on the sketch of midship section - In other respects the vessel appears eligible to be classed 100A-1. although the Surveyor has omitted to state what class he recommended her for.
