

Hamburg. 16<sup>th</sup> May 1893.S. S. June

It is submitted that Mr Berendt be informed in answer to his request - to have the two attached boiler tracings returned to him that it is the ordinary custom for all tracings referring to hulls & machinery to be forwarded to this office to be placed Dept- ~~tracings~~ with the reports for future reference. -

In the event however of another set of boilers off the same plan being built for a sister ship, these tracings could be sent back to him on the understanding that they be returned to this office when done with. -
