VESSEL'S NAME

St. L. Heissen

Report

Ham No. 4317

The remarks of the Chief Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 14/5/92.)

Nature of Survey

1st Entry

It is submitted that before this case receives the consideration of the Committee, the Surveyor should be requested to state if this vessel was supplied with 90 fathoms of 1 4/16" stream chain, or 90 fathoms of 4 3/4" steel wire, as required by the Rules, as no mention of this having been done is made upon the report.
