Enclosure.

18th June, 1929.

Dear Sirs,

I return herewith one copy of the plan, forwarded with Dr. Webster's letter of the 14th instant, of the watertight doors proposed to be cut in the watertight bulkheads of the Steamer "SOLGLIMT", and with regard thereto I have to state that provided the door from the engine room to the generator room be made of the watertight sliding type, worked from B deck, as proposed by the Owners, and the arrangements otherwise be carried out as shown on the plan and to your satisfaction, they will be approved.

The duplicate plan is being retained for record, together with the profile plan showing the arrangement of bulkheads in the ship.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

GOTHENBURG.
