14th May, 1929.

Dear Sirs,

I have to acknowledge the receipt of Dr. Webster's letter of the 11th instant respecting the s.s. "SOLGLINT", and to acquaint you that the contents have been duly noted.

In reply thereto I have to inform you that the proposal to electrically weld the butts of the transverse plating of the whale dock in way of the dock gate is not considered to be satisfactory, and these butts should be riveted as shown on the plans originally.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,  
GOTHENBURG.
