16th April 1894

ANSR. X

Sir,

In accordance with the request contained in your telegram received this afternoon, I visited the yard of Messrs. Furness, Withy & Co., & requested them to furnish us, if possible this afternoon, with a detailed sketch of after hold stringer of the S.S. Manning, then No. 204 Vessel, & have since received the enclosed letter & sketch.

This sketch does not show the whole of the hold stringer, but it shows the four spaces where the bulk face angle is omitted & agrees with the sketch previously submitted. The bulk face angle is fitted throughout, except in the four spaces that are marked in red.

I am, Sir,
Your obedient servant
Chas. F. Whiting

The Secretary
London.
