5 & 6, BILLITER AVENUE, E. C.

FURNESS, WITHY & CO., LIMITED,

WEST HARTLEPOOL.

Lloyds Surveyors

West Hartlepool.

Dear Sirs,

16th April, 1894.

204.S.S.

As desired enclosed we beg to hand you a small tracing of the lower deck stringers in connection with the spacing of beams. The pieces of face plate angle we have left off (marked in red) we contend are not necessary when the beams are so close together and are not required by your Rules.

For your information the new arrangement of framing and spacing of beams that we have given you has run out 5 tons heavier than the old arrangement. Against this we have saved
1 - 16 - 0 - 0 by spacing the web frames wider.

Yours truly,

For FURNESS, WITHY & CO., LIMITED,

E. B. S. Sewing
Shipyard Manager.
