Steel. Screw steamers No. 232 and 234, building at West Hartlepool by
Messrs. Furness, Withy & Co., with a view to class 100A1 "Steel"

The Builders propose to supply the equipment of hawsers and
warps for these vessels as specified by the Owners, instead of the
hawsers and warps required by amended Table 22.

S. S. No. 232. Equipment No. 62295.

Proposed by builders.

Required by amended Table.

130 fathoms of 5 $\frac{1}{4}$ " steel wire

130 fms. of 5 $\frac{1}{4}$ " Steel wire.

90 fms. of 12" manila

6 warps of 90 fms. each 7" manila

4 warps, 90 fms. each of 8" manila.

S. S. No. 234. Equipment No. 33660.

120 fms. of 4 $\frac{1}{2}$ " steel wire

120 fms. of 4" Steel wire.

90 fms. of 11" manila

6 warps, 90 fms. each 6" manila

4 warps 90 fms. each 7" manila

It is submitted that the hawsers and warps as proposed by
the Builders merit approval.

4th March, 1898.

Approved. G. L.
