Lloyds' Register of Shipping
London.

Sir,

I beg to acknowledge receipt of your letter dated 26th inst but you have evidently overlooked the fact that the "Tyne Queen" was specially surveyed for load line only about three months ago and your committee duly appointed the same after consideration of all salient points. - Be good enough to let me know whether you wish its form altered as per circular No 472 or not oblige.

Your obedient servant.

It is submitted that the owner
be informed that should he
desire it, the Fuel used corresponding
to the load line actually assigned
by this Committee to this vessel may
be inserted in the Register book
instead of the load draught of water
as at present.
