ANSB

Bank Chambers, Hull.

28<sup>th</sup> July 1898

The Secretary, London.

Sir,

I herewith submit for the consideration of the Committee the enclosed letter we have received from Wrig, Messrs Dougall & Broadley, shewing the equipment they propose for the Steel Ing, designated H-1, now being built by them.

The equipment proposed is similar to what has been approved of for vessels of this type, and in my opinion merits approval in this case.

The approved tracings are enclosed for reference.

I am, Sir,

Your obedient servant,

Jos. Thomson
